3011 Senior Front End Developer (m/w)

Beschreibung:

For our client we are looking for a Front End Developer who helps to maintain the current trading platform and have the opportunity to improve and create new libraries and frameworks upon which the trading platform is based.

The team interacts directly with traders and business owners to capture new requirements, design and implement innovative solutions in an agile environment.

- Design, build, test and deploy new solutions / features
- Communicate and liaise with key business and IT stakeholders
- Continuously drive and improve the system

Anforderungen:

- Profound hands on JavaScript programming skills and deep knowledge of current JavaScript frameworks and technologies (React, Typescript, Node.js)
- Understanding of Unix Operating system and bash scripting
- Excellent decision-making and problem solving skills
- Work experience in the financial industry
- Very good English and communication skills
- Team player
- Ability to work in an agile environment
