3172   Frontend Software Developer 50-100% (w/m/d)

Beschreibung:

Für unseren Kunden in Winterthur, suchen wir einen Frontend Software Developer 50-100% (w/m/d).

- As a frontend developer, you will take our UI to the next level
- As a driving force, you can relate with our vision and have the desire turn it into reality
- As a team member you actively shape the team by bringing in fresh ideas and your personal style
- As an engineer with a DevOps mentality, you support the team by contributing to solution design, development and technical support
- As an achiever, you take responsibility and implement tasks independently
- As a developer in our full stack team, you will help shape the design and architecture and ensure that our platform is continuously improving

Anforderungen:

- Deep understanding of React/NodeJS
- Several years of experience as a frontend software developer
- Team player with an open mindset for new things who enjoys agile work
- Experience with modern architectures, MicroServices, REST, Java SpringBoot
- Test automation, agility, DevOps, CI/CD, clean code are a matter of course
- Since you will be working in an international team, you are fluent in English or German
- Experience with cloud technologies like Docker and Openshift is a plus

Einsatzort	Winterthur / Remote
Start	Nach Vereinbarung
Pensum	50-100%
